

# Argon0

Smallest, but as truthful. When your ear does not want to compromise, but aesthetics or space call for a smallest possible loudspeaker, Argon0 might be the answer. Argon0 is small premium design - the only modest thing about it is it looks.

## Technical specifications

|                          |                       |
